PLAN FOR WATER SYSTEM.

Messrs. Gibson and Kyle have purchased the Samuel Hevener Spring above town with a view to giving Monterey a water supply. The purchase includes a site, near the head of the spring, for a reservoir, and they are figuring on bringing it to town in a four-inch pipe. The distance is about 5,000 feet, with a fall of 500 feet.

This is the first movement in this direction that has gotten beyond the talkative or theoretical stage, and the gentlemen who have the matter in hand should be encouraged in every possible way. It may be only an initial step, and perhaps no more is claimed for it, but it looks to the installing of a water system for the town, the necessity for which is apparent to all of us.

The Hevener Spring is a very strong one, the water is excellent, and it has long been recognized as the logical source from which to supply the town.

We are assured that it is a bona fide purchase, the papers being signed, sealed and delivered, and if the measure of our encouragement be the extent of our need, the enterprise will be a success.
